### **DETAILED ACTION**

Claims 1-11 are pending. No drawings were filed with the application.

*Foreign priority papers have been received.*

#### ***Information Disclosure Statement***

The IDS submitted 11-25-2003 and 11-10-2004 have been considered.

#### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1, 3-4, 10-11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The term 'an active hydrogen-containing organic compound' is indefinite and unclear. It is unclear what chemical structure this term is referring to.

Claims 10-11 the term 'product' is indefinite and unclear. It is unclear what chemical structure this term is referring to. With no clear determination/definition of the 'product' formed by the process the examiner cannot possibly carry out a meaningful search on applicant's invention. What exactly is the 'product'?

In claim 3, what exactly is a 'glycidyl ether adduct'? How does this 'adduct' differ from the 'product' of claims 10-11?

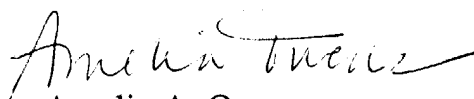

Claims 7-9 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim cannot depend from another multiple dependent claim. See MPEP § 608.01(n). Accordingly, the claims 7-9 not been further treated on the merits.

Claims 2,5,6 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
